Safety Instructions

Please read all instructions carefully before using the Mobile Vlogging Kit and retain them for future reference. If you pass The Mobile Vlogging Kit onto another person ensure that you also pass these instructions too.
When using this unit, basic safety precautions should always be followed:
Ensure all parts are correctly assemble and the product is placed on a level surface.

- This unit is not a toy.
- This unit contains no user serviceable parts. If the unit and any of its accessories are malfunctioning or it has been dropped or damaged, only a qualified person should carry out repairs. Improper repairs may place the user at risk of harm.
- Keep the unit out of reach of children.
- Keep the unit away from heat or sharp edges that could cause damage.
- Keep the unit away from heat sources, direct sunlight, humidity, water and any other liquid.
- Keep the unit free from dust, lint etc.
- Do not operate the unit in water or any other liquid.
- Do not operate the unit with wet hands.
- Do not operate the unit if it has been exposed to water, moisture or any other liquid, to prevent against electric shock, explosion and/or injury to yourself and damage to the unit.
- Do not use the unit for anything than its intended use.
- Do not store the unit in direct sunlight or in high humidity conditions.
- Do not put objects into any of the openings.
- Do not short - circuit.
- Do not stack up with other electrical or electronic device(s) to avoid overheating.
- Do not overload or overcharge the unit.
- This unit is intended for domestic use only. It should not be used for commercial purposes.
- Don't charge battery packs overnight or while you are out of the house.
- In the event of a cell leaking, don't allow the liquid to come into contact with the skin or eyes. If contact has been made, wash the affected area with water and seek medical advice.
- Don't expose to extreme temperatures of hot or cold. For example, do not leave it in a parked car where it could get very cold in winter or very hot in summer.
- Don't leave a battery on prolonged charge when not in use.
- Don't store battery packs where may short-circuit by conductive material - such as in your pocket or bag with coins or keys.
- Don't drop or roughly handle battery packs. They are robust but not indestructible.
- Don't cover when charging. Charge in a well-ventilated environment.

Warning: Keep the unit away from flammable materials.

Product View

1	Lifting Handle	Pull to extend
2	Adjustable Phone Holder	To grip phone securely

16	USB Connector	Connects to a power source (Mains Adaptor, PC, Laptop, Powerbank etc)

Function Summary

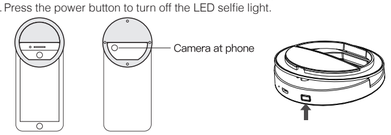

Charging the LED Selfie Light

1. Please use the USB connection cable that is included in packing. Connect the cable to Micro USB input port on the LED selfie light.
2. Please connect the other end to your mains adaptor, PC, Laptop, Powerbank etc. (not included). While charging the LED selfie light, the LED indicator light will be red.
3. When the LED selfie light is fully charged. The LED indicator light will turn off.

How to Use the LED Selfie Light

1. Press the top of the hold clip to loose its grip.
2. Please put the Selfie Light on the top of your device as shown so that it surrounds the front-facing camera.
3. Do not obstruct this lens or you will not be able to take your selfie picture.
4. Press the power button to turn the light on, then press the button again to adjust you desired brightness. Sequence is as below:
   low brightness ->medium brightness->strong brightness.
5. Hold down power button for 2 seconds for flashing light.
6. Press the power button to turn off the LED selfie light.

How to Use Lens kit

Fisheye Lens

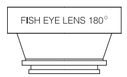

Select the fish-eye lens and attach to the lens clip by screwing the lens clockwise.
Align the lens clip with smartphone camera and attach to the handset.
Fisheye Lens can shoot a scene close to 180 degrees so that you can enjoy the illusory fisheye world.

0.67X Wide-angle Lens

Select the 0.67x wide angle lens and attach to the lens clip by screwing the lens clockwise. Please be aware that the wide angle and macro lens are combined. To use the macro lens, unscrew the wide angle lens anti clockwise and this should easily be removed. Align the lens clip with smartphone camera and attach to the handset.
0.67X Wide-angle Lens increases the shooting range by about 49%, and can shoot more people, buildings and landscapes.

The Macro Lens

Select the macro lens and attach to the lens clip by screwing the lens clockwise.
Align the lens clip with smartphone camera and attach to the handset.
Please note that the 0.67 wide angle lens can be added onto of the macro lens by simply screwing the lens clockwise.
Macro Lens can take clear photos of tiny objects at close range.

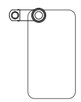

Fisheye Lens

0.67X Wide-angle Lens

The Macro Lens

Cleaning and Maintenance

If necessary, please use a soft cloth to clean the Mobile Vlogging Kit.

- Do not expose the unit to liquid, moisture or humidity.
- Do not use any abrasive cleaning solvents to clean the unit, as this can cause damage.
- Do not expose the unit to sharp objects, which may cause damage.
- Do not expose the unit to extremely high or low temperatures.
- Do not drop the unit.
- Do not attempt to dissemble the unit, as this may cause damage to the unit.
- This product is intended for use within UK
- Do not dispose of the unit in the fire.

Storage

Before storing the unit, ensure that it is clean and dry.
Store in a cool and dry place.

Do's and Don'ts

Read the following recommendations before using the unit.
Following these you will be able to enjoy the product for many years.

- Avoid direct spray of liquids. Do not immerse in any liquids.
- Don't use abrasive cleaning solvents to clean the unit.
- Do not expose the unit to extremely high or low temperature as this will shorten the life of electronic devices, distort certain plastic parts.
- Don' t dispose of the unit in a fire as it will result in an explosion.
- Don't expose the unit to contact with sharp objects as this will cause scratches and damage.
- Don't let the unit drop on to the floor. The internal circuitry might get damaged.
- Don't attempt to disassemble the unit as it may get damaged if you are not professional.
- Do not expose the unit to heat or fire. Avoid storage in direct sunlight.
- Do not subject the unit to mechanical shock.
- Do not add any fluids or solids to your unit.
- Do not use the unit if it has been damaged in any way.

Specifications

Model Number	373385
LED selfie light Battery Type	Lithium polymer
LED selfie light Battery Capacity	3.7V/200mAh
Input	5.0V /0.5A
Charging Time	1.5 Hours approx.
Phone Holder Dimensions	56mm-88mm
Weight	133.5g

EC Declaration

This product complies with the below listed EU Directives.

2014/53/EU Radio Equipment Directive
2014/30/EU Electromagnetic Compatibility Directive
2011/65/EU Restriction of Hazardous Substances
2013/56/EU Battery Accumulator Directive

The complete declaration of conformity is available upon request for relevant enquiries.

Information on Waste Disposal for Consumers of Electrical & Electronic Equipment

This mark on a product and/or accompanying documents indicates that when it is to be disposed of, it must be treated as Waste Electrical & Electronic Equipment (WEEE).
Any WEEE marked waste products must not be mixed with general household waste, but kept separate for the treatment, recovery and recycling of the materials used.
For proper treatment, recovery and recycling; please take all WEEE marked waste to your Local Authority Civic waste site, where it will be accepted free of charge.
If all consumers dispose of Waste Electrical & Electronic Equipment correctly, they will be helping to save valuable resources and preventing any potential negative effects upon human health and the environment, of any hazardous materials that the waste may contain.
